

SILK ROAD START

CHINESE STUDIES PROGRAM

STUDY IN XI'AN

Silk Road Start is hosted by Xi'an Eurasia University, a school that provides an excellent environment for learning Chinese and building relationships with local students. Our small class sizes are ideal for improving the speaking skills necessary for daily life, travel, and work in China. Students live in furnished apartments within Xi'an's university district, where restaurants, entertainment, and shopping are all within walking distance. Living in a city famous for its history, food, and mountains also allows students the opportunity to dive deep into Chinese culture, getting the most out of their Chinese experience.
